UNITING SCHOOL AND HOME

There are certain problems in which there is a tendency for the schools and the homes to pass the buck to each other. The parents find fault because the young people do not learn faster in the schools, and the schools are often able to report that the pupils have outside interests and habits that make good work in the class room impossible.

Many parents are amazingly ignorant of the methods by which a fine type of young people can be developed. They send their children off to school with lunches of pickles and cake and candy, and then think that the youngsters get pale faces and anaemic bodies as the result of over-study. They allow their young folks to be up very frequently at dances and other entertainments until early morning hours, and then wonder why the pupils have no "pep" the next day.

They permit young girls to have unlimited freedom with all kinds of boys, and then blame the mixed associations of the public schools for low standards. They allow their children to attend all kinds of moving pictures and read all varieties of sensational novels and then wonder why the youngsters think their school lessons dull and the teacher has no enthusiasm.

Here is a field of effort on which much more might be done in Monett. No matter how much interest our progressive people may take in education, there are always careless homes that turn their children over to the schools to be educated with as little thought as they would turn shoes over to the cobblers to be repaired.

There ought to be in connection with every school, some organization in which teachers and parents should meet, and discuss the development of young people, and the policies on which the school and home ought to unite. Parent-teachers associations and mother's clubs have done great

good along this line in many places, although the parents that need this contact the most do not usually get it.

WHEELER FARM CLUB MEETING
 The Wheeler Farm Club met Thursday evening, November 3, with a large attendance of both men and women. The subject for debate was "Resolved, There is more peace in the home on the farm than there is in the city." The judges decided in favor of the affirmative.

HOW NOT TO TAKE COLD

Some persons are subject to frequent colds, while others seldom, if ever, have a cold. You will find that the latter takes good care of themselves. They take a shower or cold sponge bath every day in a warm room, avoid over heated rooms, sleep with a window open or partly open, avoid excesses, over eating, becoming over heated and then chilled and getting the feet wet. Then, when they feel the first indication of a cold, they take Chamberlain's Cough Remedy without delay and it is soon over.

WHAT YEASTOLE DOES

Most people just drag along half fit. They lack the vim which gives zest and sparkle to life, because their system is burdened with the effects of malnutrition. They feel worn out and have to spur themselves on to do their daily task and get no joy out of life. Yeastole, Yeast with Charcoal overcomes this condition, not by irritating the faded nerves and bodily organs to renewed effort, but by neutralizing the deadening poisons and by supplying Vitamines essential to health and energy, for YEASTOLE IS A FOOD NOT A DRUG.

COSTS LITTLE BUT DOES MUCH.
 Grocers and Druggists sell it.

A CORRECTION

In the Gunter items of last week, a typographical error was made in the item regarding the death of Harvey Wheeler, and the name of Mr. Wheeler's assailant was given as Oscar Prier, instead of Pharis Prier. We are very sorry the mistake occurred and hope Oscar Prier will not be injured in any way. It was one of the deplorable mistakes so easily made in a printing office, and we are glad to make the correction.
